COVID-19 update

Cyhoeddwyd / Issued
25/03/2020

No Visiting

The health board has taken the decision to stop visiting to our hospitals. This decision has been made in the context of the Prime Minister's announcement on social distancing.

There should now be no visiting to any of our wards with the exception of a single birth partner in our birth centres and at the discretion of the ward sister at end of life.

Patient laundry can be bagged and tagged and sent to the central laundry service if needed. Friends and family should not be bringing or collecting laundry from wards.
